Discussion Paper Series A(Current)

The Papers of the Asterisked Number are browsable in HUSCAP

Update:2024.2

No	Year	Author	Title
* 372	2024.2	Yukiko Abe	Income effect of labor market participation by married women in Japan
371	2023.10	SHEN Li	Antecedents of followership: Focusing on digital transformations
370	2023.5	Xiaoqiang Zeng Yoshihide Kakizawa	Two-step conditional least squares estimation in ADCINAR(1) process, revisited
369	2023.2	Xiaoqiang Zeng	GMM and GEL estimation in the INAR(1) process
368	2023.2	Yoshihiro Tanaka	Average probability of an element being a generator in the cyclic group
367	2022.12	Xiaoqiang Zeng Yoshihide Kakizawa	Higher autocumulant functions for ADCINAR(1) process and bias-correction of some estimators
366	2022.10	Gechinti Bede Onyeneke	Explaining the Mixed Effects of Alternative Conceptualizations of Workgroup Cultural Diversity: A Literature Review
365	2022.8	Yoshihide Kakizawa	Asymmetric kernel density estimation for biased data
364	2022.6	Xiaoqiang Zeng	Whittle's likelihood estimation in the INAR(1) process
363	2022.5	Makoto Matsuo	High-performance human resource management practices and proactivity : An empirical study of health care workers
* 362	2022.3	Ryo Miyata Teruyoshi Suzuki Kyoko Yagi	The Dynamics of Takeovers through Exchange Offers in the Presence of Competition
* 361	2021.10	Rasolomanana Onjaniaina Mianin' Harizo	ENSEMBLE NEURAL NETWORK USING A SMALL DATASET FOR THE PREDICTION OF BANKRUPTCY: COMBINING NUMERICAL AND TEXTUAL DATA
360	2021.9	Koshiro Yonenaga	On the product of a Wishart matrix and a normal vector with a dependence structure
359	2021.6	Hikaru Hasegawa Kazuhiro Ueda	Empirical Analysis of Time-Use Model Incorporating Correlations Among Three Household Members
* 358	2021.4	Rasolomanana Onjaniaina Mianin' Harizo	Bankruptcy Prediction Model Based on Business Risk Reports: Use of Natural Language Processing Techniques
357	2021.3	Toyoichiro Shirota	Causal Effects of the BOJ's Stock Market Interventions
356	2021.2	Yoshihide Kakizawa	Multivariate elliptical-based Birnbaum–Saunders kernel density estimation for nonnegative data
* 355	2020.12	Toyoichiro Shirota	Note on alternative work arrangements, tasks, and compensations: Evidence from a quasi-natural experiment
354	2020.12	Yoshihiro Tanaka Mitsuru Togashi	Polynomial time method for solving the equilibria of zero-sum games
* 353	2020.12	Honghui Li Masato Hiwatari	Family Size and Educational Attainment: The Case of China
352	2020.10	Fiyori Afeworki Negash	Challenges and Risks of the SMCP in Eritrea: Perspectives of the Beneficiaries and SMCP Management
351	2020.10	Enkhzaya Nergui Tadashi Uda Yuji Sakagawa	How entrepreneurial intention influences entrepreneurial behavior: The moderating effects of human capital, social networks, and financial capital

Discussion Paper Series A(Current)

The Papers of the Asterisked Number are browsable in HUSCAP

No	Year	Author	Title
350	2020.6	Enkhzaya Nergui	Exploring the entrepreneurial intention-behavior link
349	2020.6	Ligui Lin Xuejing Cai Jun Yin	Effects of mentoring on work engagement: Work meaningfulness as a mediator
348	2020.5	Jun Yin	Mindset and individual learning in the workplace: A systematic review and future agenda
347	2020.5	Xuejing Cai Ligui Lin	Do mentors help emotional labor employees? Linking mentoring and emotional labor strategies to work engagement
346	2020.5	Jun Yin	Effects of paradox mindset on work engagement: The mediating role of job crafting and individual unlearning
345	2020.5	Enkhzaya Nergui Tadashi Uda	Theoretical study on entrepreneurial intention and behavior
344	2020.4	Yoshihide Kakizawa	Recursive asymmetric kernel density estimation for nonnegative data
* 343	2019.11	Hajime Kubota	Trade and Welfare in General Equilibrium : A Discrete-time Infinite Horizon Case.
* 342	2019.10	Ahmed Waqar Qasim Jun-ichi Itaya	Trade Policy with Intermediate Inputs Trade
341	2019.10	Lei Shi	Bayesian Dynamic Panel-ordered Probit Model with Individual Heterogeneity
340	2019.9	Ping Gao	Bayesian Analysis of a Dynamic Multivariate Spatial Ordered Probit Model
339	2019.8	Yoshihide Kakizawa	A class of Birnbaum–Saunders type kernel density estimators for nonnegative data
338	2019.5	Masato Hiwatari Daichi Yamada Peter Hangoma Daiju Narita Chrispin Mphuka Bona Chitah John Yabe Shouta MM Nakayama Hokuto Nakata Kennedy Choongo Mayumi Ishizuka	Assessing the population-wide exposure to lead pollution in Kabwe, Zambia: blood lead level estimation based on survey data
337	2019.4	Yoshihide Kakizawa Gaku Igarashi	Supplemental appendix to "Higher-order bias corrections for kernel type density estimators on the unit or semi-infinite interval"
336	2019.2	Tomokazu Abe Hiroyuki Yamaguchi	Changing Business Model Continuously: Tracing Secoma's Business Model Change
335	2019.1	Ping Gao	Bayesian Analysis of a Multivariate Spatial Ordered Probit Model
334	2019.1	Lei Shi	Bayesian Analysis of Multivariate Ordered Probit Model with Individual Heterogeneity
333	2018.11	Aki Yoshimi	Exploring Management Accounting Research in the Japanese Content Industry
332	2018.10	Hikaru Hasegawa	Simple Interpretation of Gini and Zenga Curves
* 331	2018.10	Yoshihiro Tanaka	On the use of the simplex method for a type of allocation problems
* 330	2018.9	Hajime Kubota	On Dynamic Gains from Free Trade: Discrete-time Infinite Horizon Case
